

Draft Resolution

Rationale:

1. Whereas, any effective policy on faculty utilization with its inherent implications within the academic arena will require the support of an informed faculty, and
2. Whereas, these policy statements as educational documents are intended to demonstrate the range of activities engaged in by academic faculty, and
3. Whereas, campus statements, guidelines or policies on faculty utilization can be construed and used as job description for academic faculty,

Resolution:

Therefore, be it resolved that no campus policy on faculty utilization should be promulgated without full consultation with the campus governance structure, nor, without the distribution of these draft policy statements to all faculty who would be affected by their implementation.
